### Microsoft awards ADITS Solutions Partnership Status

#### Microsoft awards ADITS Microsoft Silver Small and Midmarket Cloud Solutions Partnership

ADITS has achieved Microsoft Silver Small and Midmarket Cloud Solutions Competency earlier this month.

To earn a Microsoft silver competency, partners must successfully demonstrate expertise and commitment to delivering solutions tailored to small and midmarket customer requirements.

Partners that invest in this competency are ready to address the rising customer demand for Microsoft cloud solutions based on Office 365, Windows 8, and Windows Server 2012.

'By achieving a silver competency, organizations have proven their expertise in specific technology areas, placing them among the top 5 percent of Microsoft partners worldwide,' said Phil Sorgen, corporate vice president, Worldwide Partner Group at Microsoft Corp.

'When customers look for an IT partner to meet their business challenges, choosing a company that has attained Microsoft competencies is a smart move. These are highly qualified professionals with access to Microsoft technical support and product teams.'
